| 9:00-9:25  | Part 1 Nutrition-Related Liver Disorders: NAFLD  
(1) Toshii Saibara  
Topic: NAFLD - An Epidemiological Perspective from the Asian Pacific Region  
Chair: Sumio Watanabe |
| 9:25-9:50  | (2) Marilyn O. Arguillas (Philippines)  
Topic: NAFLD: a Nutrition-Related Disease  
Chair: Marilyn O. Arguillas (Philippines) |
| 9:50-10:15 | (3) Yong Kyun Cho (Korea)  
Topic: Nutrition and Dietary Behavior in Patients with NAFLD  
Chair: Yong Kyun Cho (Korea) |
| 10:15-10:30 | Coffee Break            |            |
| 10:30-10:55 | Part 2 Nutrition-Related Liver Disorders and Hepatic Carcinogenesis  
Chair: Toshiji Saibara |
| 10:55-11:20 | Part 3 Nutritional Factors (Nutritional Aspects) in the Digestive System  
Chair: Marcellus Simadibrata (Indonesia)  
Topic: The Management of Zinc Deficiency in Acute Diarrhea  
Chair: Mitsuhiko Moriyama |
| 11:20-11:45 | Part 4 Nutritional Factors (Nutritional Aspects) in Pancreatobiliary Disorders  
Chair: Susumu Tazuma |
| 12:00-13:00 | Luncheon Seminar 1  
Lecture by a Japanese 1:  
Jun Kunisawa (The University of Tokyo)  
Topic: Lipids, vitamins, and nucleotides in the development and control of intestinal immune diseases  
Chair: Kazuhiko Koike |
| 13:00-13:15 | Photo Session (place to be announced) |
| 13:15-14:30 | Poster Round in the Poster Venue (Rose Room C)  
(See the reverse side for more details.) |
| 14:30-15:00 | Best Poster Award Ceremony and Presentations  
(liver, gallbladder, and pancreas)  
Chair: Yoshiyuki Takei |
| 15:00-15:15 | Coffee Break            |            |
| 15:15-15:40 | Part 5 Nutritional Factors (Nutritional Aspect) in GI Disorders  
Chair: Ryota Hori |
| 15:40-16:05 | Part 6 Obesity and the Digestive System  
Chair: Yoshinori Igarashi |
| 16:05-16:30 | Part 7 Nutritional Factors (Nutritional Aspect) in GI Disorders  
Chair: Hirohisa Maeda |
| 16:30-16:45 | Part 8 Nutritional Management  
Chair: Soji Ozawa |
| 16:45-17:10 | Part 9 Novel Nutritional Therapeutic Approaches for Optimizing Clinical Outcomes in Surgical Patients  
Chair: Khean Lee Goh (Malaysia) |
| 17:10-17:35 | Part 10 Dietary Intake, Digestion/Absorption and Nutrition of the Digestive System  
Chair: Kazuhiko Koike |
| 17:35-17:50 | Closing Remarks          |            |
| 17:50-18:15 |                |            |
| 19:00-21:00 | Farewell Party (Venue: Akasaka Umaya) |

*Honorary for lecturers and chairs omitted*
Group 1 13:15-14:30
Moderators:
Ryota Hori (Poster No. 1-5)
National Defense Medical College, Japan
Takumi Gotoda (Poster No. 6-8)
Tokyo Medical University, Japan
Yoichi Sakurai (Poster No. 9-11)
Fujita Health University School of Medicine, Japan

1 Des-Gln14-grelin, ghrelin’s splice variant, –induced feeding is blocked by insulin but independent of obestatin or CRL receptor in satiated rats
Chih-Yen Chen
National Yang-Ming University School of Medicine, Taiwan

2 Dietary fat exacerbates NSAID-induced mucosal damage in murine small intestine
Toshihisa Ueda
National Defense Medical College, Japan

3 Trans fatty acids in diets act as a precipitating factor of DSS-induced colitis by the up-regulation of macrophage-derived proinflammatory cytokines
Yoshikio Okada
National Defense Medical College, Japan

4 Dietary medium-chain triglycerides prevent chemically induced experimental colitis in rats
Hiroshi Kono
University of Yamanashi, Japan

5 Diarrhoea during enteral nutrition is predicted by the poorly absorbed short-chain carbohydrate (FODMAP) content of the formula
Emma Halmos
Monash University, Australia

6 Emergence of celiac disease in India
Goud Mahanta
All India Institute of Medical Sciences, India

7 Obesity and gastrointestinal diseases
Ali Fujimoto
Toho University Medical Center, Japan

8 Selenium deficiency associated during the long-term management with TPN due to short-bowel syndrome caused by Crohn’s disease: a case report
Satoshi Taneda
Nagoya City University, Japan

9 The influence of body weight loss following neoadjuvant chemotherapy for esophageal cancer on postoperative complications
Tsutomu Hayashi
Tokai University, Japan

10 Clinical and experimental study on the development of NAFLD after major pancreatectomy,
Takahiro Fujita
Mei University Graduate School of Medicine, Japan

11 Invention of biliary diversion tube for human bariatric therapy and prevention of Barrett’s esophagus
Takahiro Sato
Harada Hospital, Japan

Group 2 13:15-14:30
Moderators:
Teruo Nakamura (Poster No. 12-14)
Hiroaki University, Japan
Susumu Tazuma (Poster No. 15-18)
Hiroshima University School of Medicine, Japan
Junichi Shoda (Poster No. 17-18)
University of Tsukuba, Japan
Masahiko Koda (Poster No. 19-21)
Tottori University, Japan
Katsutoshi Tokushige (Poster No. 22-24)
Tokyo Women’s Medical University, Japan

12 Salvia Miltiorrhiza, a traditional Chinese medicine, ameliorated parenteral nutrition-induced liver injury in a rabbit model
Jiang Wu
Xinhu Hospital Affiliated to SJTU School of Medicine, China

13 Use of Prealbumin Measurements in Patients Receiving Parenteral Nutrition in North Shore Hospital
Hui Yan Lee
North Shore Hospital, New Zealand

14 Nutrition support in acute pancreatitis: a local audit
Jeanne Ong
Changi General Hospital, Singapore

15 Assessment of the efficacy of pancreatic enzyme supplement therapy in patients with exocrine pancreas insufficiency by CONUT score
Shin Hamada
Tohoku University Graduate School of Medicine, Japan

16 Nutrition support in chronic pancreatitis: the role of pancreatic enzymes and insulin
Yusuke Tando
Hiroaki University, Japan

17 The chemical chaperone 4-phenylbutyric acid attenuates trans-fatty acid-induced ER stress and hepatic lipotoxicity
Kazuyoshi Kon
Juntendo University School of Medicine, Japan

18 Hepatic steatosis suppresses autophagic function via down-regulation of autophagosomal acidification and cathepsin expression.
Shunhei Yamashina
Juntendo University School of Medicine, Japan

19 S-allylmercaptocysteine reduces hepatic apoptosis in a diet-induced non-alcoholic steatohepatitis rat model through p03-dependent intrinsic and extrinsic pathways
Jia Xiao
The University of Hong Kong, Hong Kong

20 Role of oxidative stress in hepatic lipid accumulation
Keisri Kanno
Hiroaki University, Japan

21 The predictive factor for the onset of nonalcoholic fatty liver disease
Teruki Miyake
Ehime University Graduate School of Medicine, Japan

22 A simple scoring system using platelet count, albumin, and AST/ALT ratio for predicting cirrhosis in nonalcoholic fatty liver disease
Masato Yoneda
Graduate School of Yokohama City University, Japan

23 Classification of non-viral chronic hepatitis by Fibroscan and CAP using cluster analysis
Kenichiro Enoki
The University of Tokyo Hospital, Japan

24 Investigation of the usefulness of scintigraphy measuring fatty acid metabolism in staging diagnosis of nonalcoholic fatty liver diseases (NAFLD)
Yuko Nozaki
National Center for Global Health and Medicine, Japan

Group 3 13:15-14:30
Moderators:
Hidetsugu Saito (Poster No. 25-27)
Keio University, Japan
Masashi Yoneda (Poster No. 28-30)
Aichi Medical University, Japan
Norihito Watanabe (Poster No. 31-34)
Tokai University, Japan

25 Fructose intake predicts subsequent non-alcoholic fatty liver disease diagnosis in obese adolescents
Leon Adams
University of Western Australia, Australia

26 Dietary habits and nutrient intake pattern of non-alcoholic fatty liver disease in Korean population
Dae Won Jun
Hanyang University, Korea

27 The role of diet and physical activity in non-alcoholic fatty liver disease (NAFLD) in diabetic patients
Wah-Kheong Chan
University of Malaya, Malaysia

28 Characteristics of patients with severe obese nonalcoholic steatohepatitis who is more than 100kg in weight
Tomomi Kogiso
Tokyo Women’s Medical University, Japan

29 B cell activating factor (BAFF) is associated with the histological severity of non-alcoholic fatty liver diseases
Masanori Abe
 Ehime University Graduate School of Medicine, Japan

30 A randomized controlled trial in reducing coronary heart disease risk with intensive lifestyle intervention in Thai NAFLD patients
Anreda Thongthong
Huahin Hospital, Thailand

31 Targeting obesity-related metabolic abnormalities for chemoprevention of hepatocellular carcinoma
Masahito Shimizu
Gifu University Graduate School of Medicine, Japan

32 Hepatic and extrahepatic malignancies in cirrhosis caused by nonalcoholic steatohepatitis and alcoholic liver disease
Kazuhisa Kodama
Tokyo Women’s Medical University, Japan

33 Impact of obesity and diabetes on carcinogenesis in cirrhotic patients with hepatitis C virus infection
Takayoshi Okawa
Iwate Medical University, Japan

34 Nutritional intervention in cirrhotic patients with hepatocellular carcinoma on the basis of energy state assessment
Takeshi Suda
Niigata University Medical and Dental Hospital, Japan
